Subject: EM:/ Sierra Club comments on the proposed ET Rover natural gas pipeline submitted to FERC today

The proposed ET Rover natural gas pipeline comment period ends Thursday.

This pipeline is not needed. This pipeline that would devastate 12,147 Michigan acres and endanger many Michigan landowners and communities on the way to Canada. This natural gas pipeline would transport fracked Marcellus and Utica shale gas from PA, OH and WV to Ontario.

Here are Sierra Club comments submitted to FERC today.
